

# 日本経営システム学会 第55回秋季全国研究発表会

場所:北九州国際会議場  
懇親会場:旧松本邸

## 特別講演

9月2日(水)

野村淳二 博士

パナソニック(株) 顧問  
国際標準会議 会長

## 基調講演

9月3日(木)

山田啓一 博士

中村学園大学 教授  
日本経営システム学会理事

## パネル討論

9月3日(木)

## The 11th International Symposium on Management Engineering

Kitakyushu International Conference Center  
(Rihga Royal Hotel Kokura)

### Welcome

: This is the eleventh symposium organized by International Society of Management Engineers to discuss on the present state of arts of "Management Engineering." The symposium is held for promoting researches on the management engineering. The management engineering was renamed from "Industrial Engineering" where the strength is placed on management as well as production in industrial engineering fields. Since Fuzzy Sets were proposed by Lotfi A. Zadeh, the research of fuzzy systems has been done very widely and rapidly. Today, the concept of fuzzy systems is merged and fusion with various concepts and technologies. The Intelligent Computing is intending to employ such methods to deal with words. The symposium is concerning with rather wide range including organization, corporate strategy, project management, management of technology, as well as intelligence, computation, operations research, probability and possibility theories, fuzzy sets, rough sets, approximate reasoning, linguistic information processing and automata, knowledge discovery, clustering and data analysis, fuzzy control and modeling, optimization under uncertainty and its applications, games and decision making, fuzzy analysis, and fuzzy game. We are welcoming all participants to attend and present recent results and discuss on management engineering from the perspective of soft and innovational computing.

<b>Keynote Speech</b>	<b>Dr. Jeng-Shyang Pan,</b>	the Doctoral Advisor. the Harbin Institute of Technology Shenzhen Graduate School.
	<b>Dr. Hamid Fujita</b>	Prof. Iwate Prefectural University, Japan, Director of Intelligent Software Systems
